

VETSCRIPTION SURE SHOT LIQUID WORMER - piperazine citrate liquid

Sergeant's Pet Care Products, Inc.

INDICATIONS FOR USE

Vetscription Sure Shot Liquid Wormer is a safe effective wormer for cats and kittens. Cats love the taste of Sure Shot Liquid Wormer. May be fed directly from a spoon or added to food. Effective against large round worms (Toxocara canis, Toxocara cati and Toxascaris leonina.)

DOSAGE AND ADMINISTRATION

SHAKE WELL BEFORE USE

Mix proper dosage with an amount of any palatable feed that will be consumed in one serving. If possible, confine treated cats or kittens for a day or two so that droppings can be collected and destroyed. Heavily infested animals may require a second treatment two weeks after the first. Administer 1/2 teaspoon (2.5 mL) per 6 lbs. of body weight.

IMPORTANT: Do not worm a kitten under six weeks of age. Never worm a sick cat or kitten. Consult your veterinarian for assistance in the diagnosis, treatment, and control of parasitism.

CAUTION

Consult veterinarian before using in severely debilitated animals. Do not worm animal more than twice yearly except as advised by a veterinarian. This product is effective for those roundworm stages found in the intestine and does not remove migrating larval stages. Animals should be checked periodically by a veterinarian for presence of other parasites. Avoid freezing.

KEEP OUT OF REACH OF CHILDREN
